

MORAY WEST WEEKLY NOTICE OF OPERATIONS	Issue Date	10/06/2024
	Ref: WNoO 0071	Rev: 00

Work Planned for the Period 10th June to 16th June 2024

Construction work for Moray West Offshore Wind Farm commenced on the 6th February 2023.

The key aim of the Weekly Notice of Operations is to give a global view of activities and vessels involved. Questions regarding the operations will be welcome preferably well in advance of each construction activity.

Moray West is developing the Moray West Offshore Wind Farm in the Moray Firth. The Moray West Site covers an area of approximately 225 km² on the Smith Bank in the Outer Moray Firth approximately 22 km from the Caithness coastline. The development will consist of 60 offshore wind turbines (WTGs) (with a total capacity of approximately 882 MW) and two Offshore Substation Platforms (OSPs) with associated subsea WTG inter-array cables and an OSP interconnector cable. The generated power will be transmitted to the grid via two subsea export cable circuits that will come ashore at Sandend Bay, which is located on the Aberdeenshire coast at Broad Craig near Sandend Bay, approximately 65 km south of the Moray West Site. There are two underground cable circuits currently under construction from the landfall at Broad Craig to Whitehillock near Keith in Moray where the Moray West onshore substation is under construction. There are also further underground cables being installed between Whitehillock substation and the existing Scottish Hydro Electric Transmission Blackhillock substation. The Moray West offshore development boundary is shown in black on Figure 1 below. Details of location of work activities within this area will be provided as work progresses.

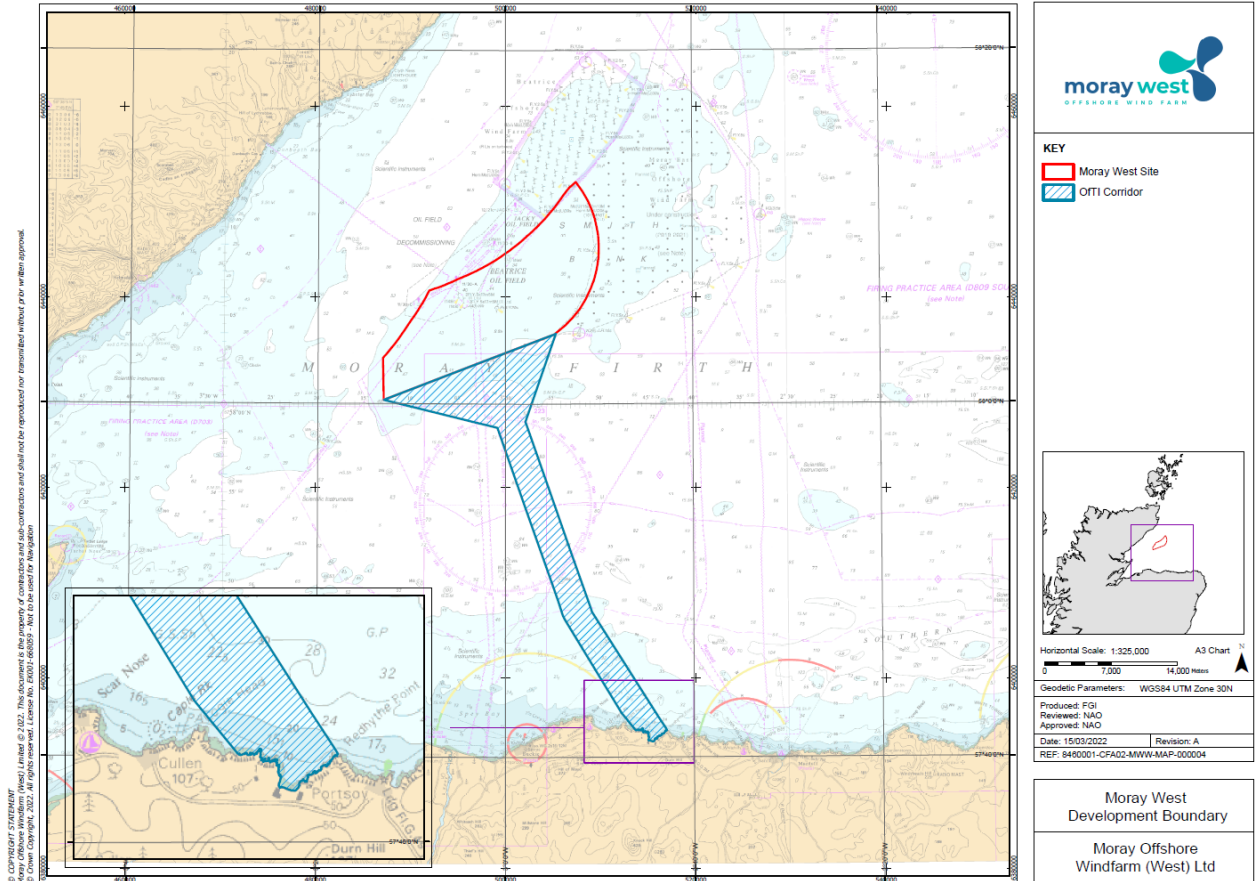

Figure 1 - Moray West Offshore Development Boundary

It is currently anticipated that weather permitting offshore construction works will be carried out year-round and on a continuous basis (i.e., 24 hours working, seven days a week) unless notified otherwise.

Moray West Marine Coordination Centre in Fraserburgh is manned 24 hours, 7 days per week.

1. Contact Details for Marine Coordination

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representative.

Duty MC (24/7)	+44 (0) 7774663504
Emergency Contact (24/7)	+44 (0) 8001488832
Marine Coordinator Email	MCC@moraywest.com
Address	Shore Street, Fraserburgh, AB43 9BR

Table 1: Contact details Marine Coordination

2. Ongoing Works

2.1 Wind Turbine Generator (WTG) Installation Works – Wind Orca

The ‘Wind Orca’ vessel arrived on site 18th April 2024 to complete offshore Wind Turbine Generator (WTG) installation onto the pre-installed monopile and transition pieces on site. The overall duration is expected to be approximately 6-9 months. The Wind Orca is supported by the SOV (Service Offshore Vessel) ‘Norwind Breeze’ and two CTV’s (Crew Transfer Vessels) Fob Swath 3 & Fob Swath 5.

The above durations include weather contingency; however, the operations may be subject to further extension.

Figure below shows the wind turbine locations where these works will take place:

2.2 Array Cable Installation Works – Vessels Seaway Aimery, Olympic Orion & MMS Crusader

Seaway Aimery supported by the Olympic Orion & MMS Crusader will undertake a scope of works including installation of subsea power cables into the Wind Turbine Generator foundations and Offshore Substation foundations. Followed by laying subsea power cables on the seabed. Also, an ROV survey of the array cable routes, and monitoring of the operation will be conducted. The vessel works are to take place within the red boundary shown in the figure below.

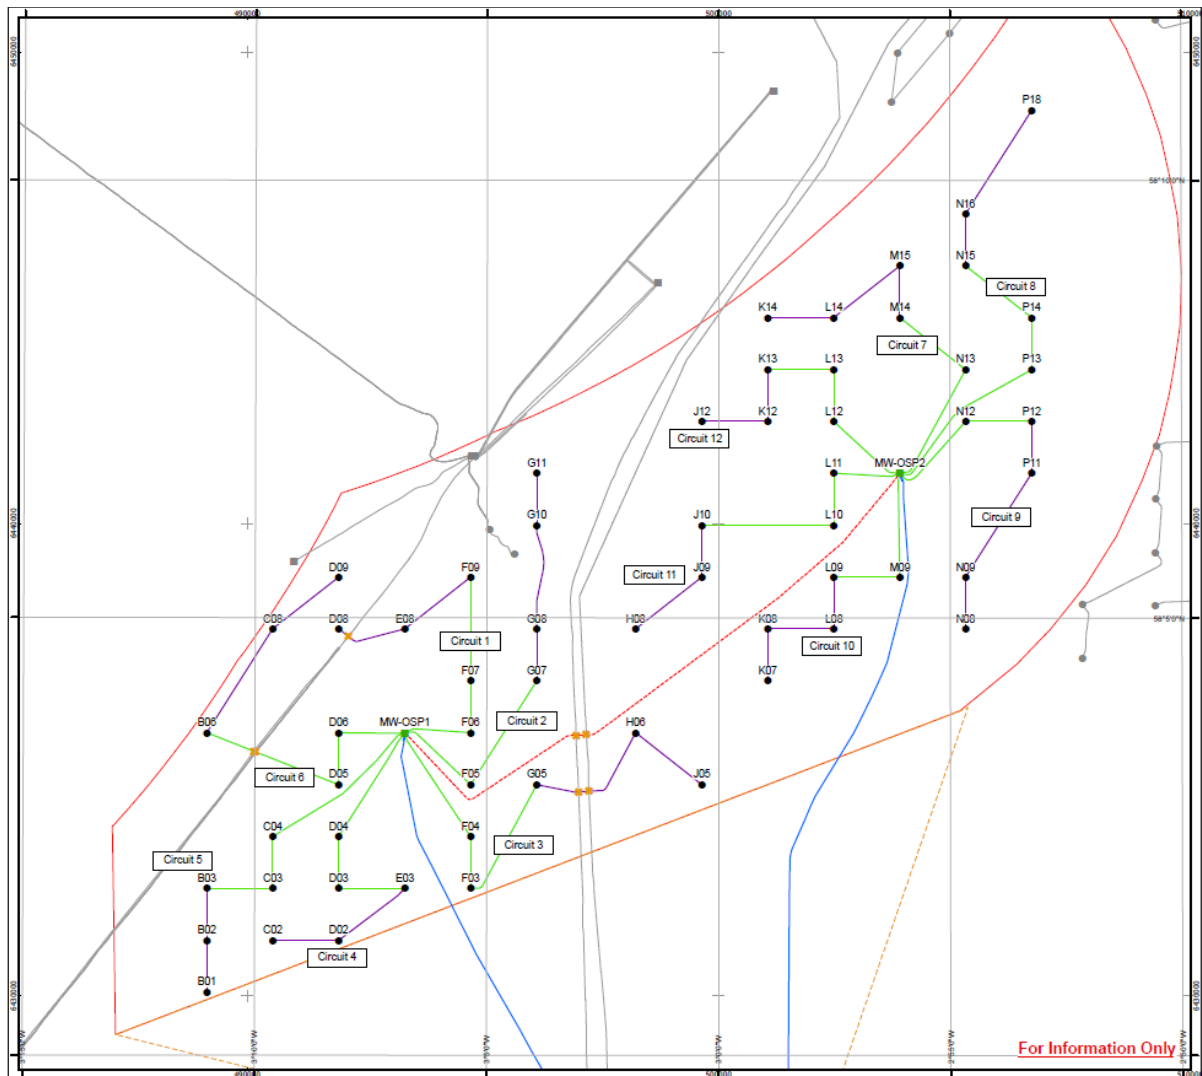

Figure 7 – Moray West Wind Farm site. Location of the cable routes for the works

MORAY WEST WEEKLY NOTICE OF OPERATIONS	Issue Date	10/06/2024
	Ref: WNoO 0071	Rev: 00

The Olympic Orion, Seaway Aimery & MMS Crusader arrived on site 12th March, 14th March 2024 & 4th May respectively. Work duration is expected to be approximately 3-4 months for all vessels. The coordinates of the work site boundary are presented in the below Table. (these are the same as presented in the figure above):

2.3 Cable Burial & Survey Works – Vessel North Sea Enabler

The North Sea Enabler arrived on site 6th June 2024 to undertake a scope of work including the jet trenching of array cables between the Wind Turbine Generator foundations and Offshore Substation foundations. Also, an ROV survey of the array cable routes post burial will be conducted.

The vessel works are to take place within the red boundary of Figure 7 (above) and same coordinates as presented in Table 6 (above)

2.4 Array Cable Installation Works – Heimdal R

Heimdal R arrived on site 7th June and will carry out a scope of work including the installation of armour rock onto the array cables at the Wind Turbine Generator foundations and Offshore Substation foundations. Also, rock will be installation at the 3rd party asset crossing locations and some cable route sections. The rock installation will be by inclined fall pipe method. Work duration is expected to be approximately 2 months.

3. Completed Works

3.1 All Marine HDD works on HDD1, and HDD2 completed 22/03/2023 and marker buoy removed December 2023.

Weather Buoy in position Latitude: 57° 41.5409'N, Longitude: 002° 43.7323'W has been removed 25th March 2024.

3.2 Moray West Construction Markers

Moray West has completed the deployment of seven construction buoys (MW1 – MW7) around the Moray West site and two wave rider buoys (MW8 & MW9) inside the Moray West site. The marker buoys will remain in place until after construction of the Moray West Wind Farm is complete. The co-ordinates for the as-built marker buoys are provided in the table below.

Table 10 – Marker Buoy Locations and Specifications

Construction Buoyage Positions and Specifications				
Buoy	ID	Location		Light and Top Mark Specification
Special Mark	MW1	58° 03' 410" N	002° 54' 140" W	<ul style="list-style-type: none"> Pillar shaped with a yellow 'x' shaped topmark Exhibiting a Fl Y 5s light character
Special Mark	MW2	58° 02' 400" N	002° 59' 010" W	<ul style="list-style-type: none"> Pillar shaped with a yellow 'x' shaped topmark Exhibiting a Fl Y 5s light character
Special Mark	MW3	58° 00' 500" N	003° 07' 100" W	<ul style="list-style-type: none"> Pillar shaped with a yellow 'x' shaped topmark Exhibiting a Fl Y 5s light character
South Cardinal	MW4	58° 00' 040" N	003° 12' 560" W	<ul style="list-style-type: none"> Pillar shaped with a south cardinal shaped topmark Exhibiting a V Quick (Q) (6) + L Fl 10s W light character.
West Cardinal	MW5	58° 03' 020" N	003° 13' 040" W	<ul style="list-style-type: none"> Pillar shaped with a west cardinal shaped topmark Q (9) 15s or V Quick (9) 10s W light

4. Upcoming works

- June 2024 - Maintenance of perimeter buoys

5. Guard Vessels

Kinnaird Marine Limited has been appointed by Moray West to provide guard vessels during the Construction campaign. Apart from times of extreme weather, there will always be at least one guard vessel on station. The guard vessel's primary duty is security of the construction site by informing and warning non-construction vessels of the ongoing activities and associated Safety Zones. Mariners are requested to navigate with caution and keep continued watch on VHF Ch. 16, 87 and 73 when navigating the area.

7. General Safety Advice

Please be aware that by virtue of their mode of operation and the equipment deployed, some construction vessels will be Restricted in their Ability to Manoeuvre (RAM) as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972, Rule 3). Masters of vessels are therefore requested to maintain their vessels and gears at a minimum safe distance from these vessels of 500 metres when it is undertaking its work and showing the appropriate shapes and lights in accordance with COLREGs Rule 27.

In order to not compromise the safety of the project vessels and their crew, and each vessel's ability to undertake its contracted works, fishermen who have static fishing gears deployed within the defined Moray West site(see Figure 1) are requested to provide the coordinates of such deployed gears in DMS and details of whether the surface markers used are visible at all states of visibility to Alex Winrow-Griffin (Brown & May Marine) using the contact information in the Fisheries Liaison section below (Section 58 of the Merchant Shipping Act 1995).

Fishermen who have static gears deployed beyond 12 nm are reminded that static gear must be marked in accordance with Commission Implementing Regulation (EU) No. 404/2011 (<https://www.gov.uk/guidance/markings-of-fishing-gear-retrieval-and-notification-of-lost-gear#marking-of-fishing-gear>). Static gears deployed within 12 nm should be marked in accordance with The Marking of Creels (Scotland) Order 2020 (<https://www.legislation.gov.uk/ssi/2020/168/made/data.pdf>).

All mariners are requested to give all construction and support vessels a safe passing distance and contact the vessel on VHF CH16 to ascertain what distance is required dependant on their ongoing operation.

Mariners are requested to navigate with caution, to use all means appropriate to aid safe navigation as defined under COLREGs Rule 27, and keep continued watch on VHF Ch. 16, 87 and 73 when navigating the area.

MORAY WEST WEEKLY NOTICE OF OPERATIONS	Issue Date	10/06/2024
	Ref: WNoO 0071	Rev: 00

8. Fisheries Liaison

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine (Moray West Company Fisheries Liaison Officer). For any non-urgent commercial fishery queries please contact Brown and May Marine or Moray West's Commercial Fisheries Manager. Note that they are only available during standard office hours and may not be able to provide immediate responses. For queries requiring an immediate response please contact either the Moray West Marine Coordinator or an Offshore Fisheries Liaison Officer:

- **Moray West Company Fisheries Liaison Officer (CFLO)**

Alex Winrow-Giffin - Brown and May Marine Ltd.

Email: alex@brownmay.com

Tel: +44 1379 872148 / + 44 7760 160039

- **Moray West Commercial Fisheries Manager**

Iain McMyn

Email : iain.mcmym@oceanwinds.com

Tel : +44 7780 191088

- **Offshore Fisheries Liaison Officer**

Currently deployed onboard Guard Vessels

9. Distribution List

The distribution of this notice is as per email recipient's header. A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address included in Section 1 of this notice.

10. Moray West Website

The official website of Moray Offshore Windfarm (West) Limited can be found at:

<https://www.moraywest.com/current-works/offshore-works>

This website will contain all Notices to Mariners (NtMs) published by Moray West during the construction phase of the project, Weekly Notices of Operations and general information about the project.
