

# NOTICE TO MARINERS (NTM)

<b>Issue Date</b>	10 <sup>th</sup> May 2020
<b>Version</b>	01
<b>Activity Type</b>	Floating LiDAR Buoy Off Station

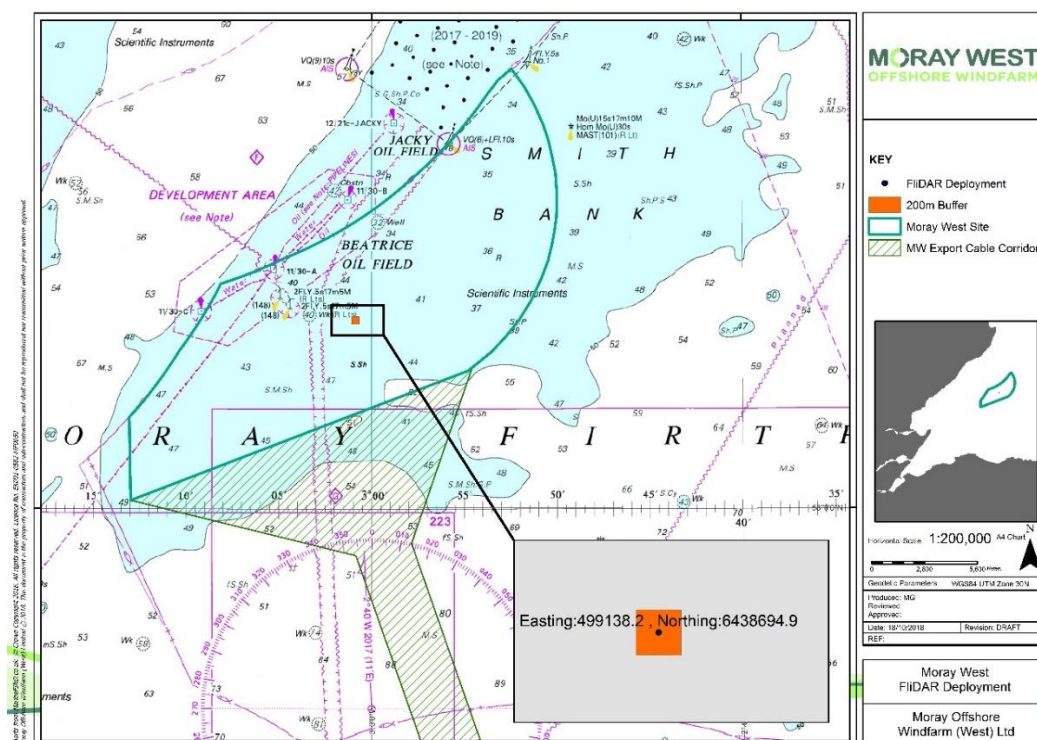

Please be advised that Moray Offshore Windfarm (West) Limited (Moray West) had positioned a Floating LiDAR Buoy and mooring system (clump weight and mooring chain) at the Moray West Offshore Wind Farm Site.

The Floating LiDAR Buoy has become detached from its site location, see coordinates below, and is currently off station. Operations to recover and/or guide the Floating LiDAR Buoy to shore are underway. The Guard Vessel 'KMS Replenish' is currently alongside the Floating LiDAR Buoy ensuring any vessels in the area are aware of its presence and take appropriate action to avoid it.

The Multicat Vessel 'Voe Jarl' has been deployed and will retrieve the Floating LiDAR Buoy back to shore for maintenance. An additional Notice to Mariners will be issued once this operation is complete.

A separate Notice to Mariners has been issued to notify mariners of the presence of the currently unmarked clump weight and mooring chain. As soon as practically possible a marker buoy will temporarily be deployed at the Floating Lidar Buoy's previous site location, see coordinates below, to notify mariners of the presence of the clump weight and mooring chain.

Floating LiDAR Buoy Original Site Location Coordinates	
Latitude (WGS84 Degrees Decimal Minutes)	Longitude (WGS84 Degrees Decimal Minutes)
58° 5.381 N	3° 0.877 W
